

10 Meter Net

QST QST QST -- This is WA3COM with (your call) at the mike. Net Control for the WACOM 10 Meter Net. WACOM is Washington Amateur Communications, located in Washington, Pennsylvania. This is a directed net and is open to all amateurs. All are urged to check in. This net meets every Tuesday at 9:30 P.M. local time on 28.340 Mhz. If interference is noted, the alternate frequency is 28.330 Mhz.

The purpose of this net is to pass along information of general interest to other radio operators, to provide a medium of good operating practice for new amateurs, and if necessary, pass along essential emergency traffic.

At this time, we will pause for anyone wishing to pass along any emergency traffic. -(pause)---
Hearing none, please adjust your transmitters to that of net control. (pause) - (count to ten and back to one)

This is WA3COM now asking for your check-ins. Please call net control, giving your name and location.

(NCS will take check-ins from as many stations as he/she wants before taking a break & acknowledging stations that have checked in & taking comments. After comments from 5 stations take a break to check for additional stations.)

This has been the WACOM 10 Meter Net. Total check-ins tonight was (). We would like to thank all who participated or helped in any way in the operation of this net & those hams that stood by to give us a clear frequency to operate on. This is WA3COM with (your call) at the mike securing the net at () local time & returning the frequency back to general amateur use.
