

Elmer Net

Good evening. Welcome to the WACOM Elmer's net. This is WA3COM, net control, with (your call) at the mike. This net is sponsored by Washington Amateur Communications located in Washington, Pa. This is a directed net and all amateurs are invited to check in.

This net meets every Wed evening at 8 PM local time on the K3PSP repeater system on 146.790, 147.285, 147.390, & 145.250 in Washington County & 147.315 in Greene County.

The purpose of this net is for helping and encouraging new and present amateurs to enhance their understanding and enjoyment of amateur radio. We also encourage anyone monitoring on scanners to obtain information and join our ranks and become a new amateur operator.

From week to week we will hope to have different Elmer's checking into this net. We also encourage stations checking in to this net to have pencil and paper ready for information obtained from this net.

Do we have any Elmer's with us tonight that want to check in first? Please call WA3COM.

We will now take check-ins from any station with questions or without .Please call WA3COM.

(NCS will take check-ins from as many stations as he/she wants before taking a break & acknowledging stations that have checked in & taking comments. After comments from 5 stations take a break to check for additional stations.)

This has been the WACOM Elmer's net. Anyone interested in ham radio is invited to check us out at the WACOM web site, www.wacomarc.org.

The NBEMS digital training net will take place on Monday at 8 PM, the ACS Training Net takes place Tuesdays at 8:30 PM on the K3PSP repeater system followed by the 10 Meter Net at 9:30 PM on 28.340 MHz.

Total check-ins tonight was (). We would like to thank all who participated or helped in any way in the operation of this net & those hams that stood by to give us a clear frequency to operate on. This is WA3COM with (your call) at the mike securing the net at () local time & returning the frequency back to general amateur use.
